** The above recognition is in addition to recognition specific to the program, event, or project funded by the sponsor. Although the ability to recognize support will vary by program and project, the recognition provided will take into consideration the comparative level of support for that project. See individual program proposals for details. Certain types of recognition may be contingent upon the donor meeting print, publication, or other deadlines.*

Please note that other programs such as corporate affiliate, the HIM Marketplace, and advertising do not contribute to the determination of recognition level.
