

Physician queries made simple with AHIMA templates.

Artifact Health's mobile physician query platform now integrates with AHIMA's compliant query templates. This alliance ensures compliant reimbursement while improving accuracy and accelerating reimbursement.

AHIMA, the Authority in Coding and CDI

- » More than 100 templates following industry best practices
- » Inpatient, Outpatient, and Pediatric settings
- » Twice a year template updates ensures continuous compliance
- » Step-by-step query process for complete and accurate information
- » Ensures appropriate reimbursement and accurate quality scores

AHIMA QUERY TEMPLATES

Miscellaneous

- Customizable Generic Template
- M:1 Present on Admission
- M:2 Cause-and-Effect Relationship
- M:3 PSI Validation Post Procedure
- M:4 Clinical Validation

Chapter 1: Infectious Diseases

- 1:1 Urosepsis
- 1:2 Sepsis validation
- 1:3 SIRS versus sepsis
- 1:4 Infection secondary to intervention
- 1:5 HIV/AIDS
- 1:6 Severe Sepsis with One Organ Dysfunction
- 1:7 Severe Sepsis Multiple Organ Dysfunction

Chapter 2: Neoplasms

- 2:1 Tumor specificity
- 2:2 Status of cancer diagnosis
- 2:3 Cancer diagnosis clarification

Chapter 3: Diseases of the Blood

- 3:1 Anemia type
- 3:2 Underlying cause of fever
- 3:3 Pancytopenia

Chapter 4: Endocrine Diseases

- 4:1 Malnutrition severity
- 4:2 Nutritional deficiencies
- 4:3 Type of diabetes

Chapter 5: Mental and Behavioral

- 5:1 Dementia specificity
- 5:2 Type of schizophrenia
- 5:3 Alcohol specificity

Chapter 6: Nervous System

- 6:1 Altered mental status
- 6:2 Hypertensive encephalopathy
- 6:3 Cerebral edema

Chapter 7: Eye and Adnexa

- 7:1 Dermatitis of the eyelid specificity
- 7:2 Glaucoma specificity
- 7:3 Retinal detachments

Chapter 8: Ear and Mastoid Process

- 8:1 Mastoiditis specificity
- 8:2 Cholesteatoma specificity
- 8:3 Otitis media specificity

Chapter 9: Circulatory System

- 9:1 CHF specificity
- 9:2 Atrial fibrillation
- 9:3 Myocardial infarction

Chapter 10: Respiratory System

- 10:1 Pneumonia specificity
- 10:2 Respiratory failure indicators
- 10:3 COPD specificity
- 10:4 Asthma specificity

Chapter 11: Digestive System

- 11:1 Ileus
- 11:2 Signs and symptoms of peritonitis
- 11:3 Colitis
- 11:4 Gastrointestinal bleeding
- 11:5 Gastroenteritis

Chapter 12: Skin and Subcutaneous Tissue

- 12:1 Skin ulcer specificity
- 12:2 Granuloma specificity
- 12:3 Lupus erythematosus
- 12:4 Debridement specificity

Chapter 13: Musculoskeletal System

- 13:1 Gout specificity
- 13:2 Fasciitis specificity
- 13:3 Rheumatoid arthritis specificity

Chapter 14: Genitourinary System

- 14:1 CKD staging
- 14:2 Abnormal renal function
- 14:3 Abnormal urinalysis

Chapter 15: Pregnancy

- 15:1 Acuity of preeclampsia
- 15:2 Hypertension in pregnancy
- 15:3 Type of delivery

Chapter 16: Perinatal Period

- 16:1 Neonatal respiratory distress
- 16:2 Prematurity specificity
- 16:3 Intracranial hemorrhage

Chapter 17: Congenital Malformations and Chromosomal Abnormalities

- 17:1 Congenital malformation, gallbladder
- 17:2 Congenital malformation of esophagus
- 17:3 Monosomy and Autosomy

Chapter 18: Signs and Symptoms

- 18:1 Supporting diagnosis

Chapter 19: Injury and Poisoning

- 19:1 Femur fracture specificity
- 19:2 Intracranial hemorrhage
- 19:3 Liver lacerations

Chapter 20: External Causes

- 20:1 Self-harm versus accident
- 20:2 Initial, Subsequent, Sequela, Specificity
- 20:3 Place of Occurrence Specificity

Chapter 21: Factors Influencing Health

- 21:1 Weeks of gestation

Outpatient Focused Queries

- OP:1 Screening versus Diagnostic Tests
- OP:2 Medication with no Associated Condition
- OP:3 Clarification of Findings
- OP:4 Clarification of Fracture Site
- OP:5 Underlying Cause
- OP:6 Clarification of a Historic Diagnosis
- OP:7 Duration of Visit/Encounter
- OP:8 Number of Premalignant Lesions Treated
- OP:9 Provider-Procedure Specificity
- OP:10 Medical Necessity
- OP:11 Treatment Plan Specificity
- OP:12 Fractured Specificity
- OP:13 Transitional versus Follow-Up Care
- OP:14 Cloning Clarification
- OP:15 Insomnia Specificity
- OP:16 Deep Vein Thrombosis
- OP:17 Depression Specificity
- OP:18 Type of Dialysis
- OP:19 Chemotherapy Regimen
- OP:20 Diagnosis to support BMI
- OP:21 Wound Care

Pediatric Focused Queries

- P:1 Transplant Status
- P:2 Community vs Congenital
- P:3 Otitis Media in Pediatrics
- P:4 Pediatric Pleural Effusion
- P:5 Pediatric SIRS due to
- P:6 Pediatric Shock
- P:7 Learning Disability
- P:8 Scoliosis Type
- P:9 General Respiratory
