

# AHIMA CORPORATE SOLUTIONS ONLINE EDUCATION RESELLER PROGRAM

Increase your CSA's success and advance the HIM profession by helping healthcare providers prepare for ICD-10

As the leader and authority in ICD-10 preparation, AHIMA is offering increased availability of its ICD-10 training and education through an innovative program: AHIMA's Online Education Reseller Program. The program allows authorized organizations to offer an AHIMA ICD-10 Fundamental training curriculum.

Through this progressive approach, resellers provide healthcare organizations with an effective, flexible option for delivering AHIMA's best-in-class training and assessments in a method tailored to health information management (HIM) professionals' learning requirements.

## Program Features

- Customized instruction in the ICD-10 transition
- Portfolio of 16 e-learning courses
- Package options designed to meet specific training and assessment needs

## Curriculum Features

- Focus on ICD-10 preparation training and assessment with the ICD-10 overview
  - Comprehensive biomedical sciences assessment and training for clinical coders and those responsible for ICD-10 code application
- Focus on anatomy and physiology, pharmacology, and medical terminology

## Reseller Benefits

- Broaden your CSA's education and training offerings
  - Turnkey solution that delivers results
  - Superior educational content
- Partner with the leader and authority in ICD-10 preparation
  - Position your CSA as forward thinking, preparing for what's next
- Be viewed as a leader by advancing the HIM profession
  - Facilitate preparation for a smooth ICD-10 transition

## How to Get Started

For more information about the program, including the curriculum, visit
