

Be Ready for the HIPAA Security Audit Program

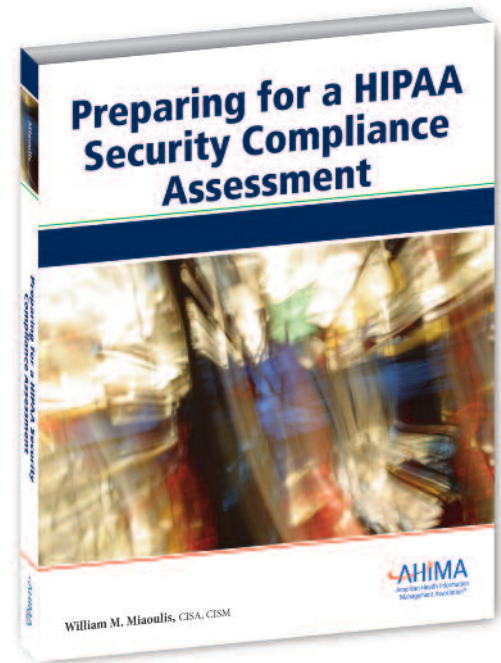

Preparing for a HIPAA Security Compliance Assessment

William M. Miaoulis, CISA, CISM

Preparing for a HIPAA Security Compliance Assessment provides the critical information you need to plan for and ensure compliance with the Health Insurance Portability and Accountability Act (HIPAA) security audit program. Step-by-step information prompts you to create a HIPAA-compliant policy to further the security and privacy of all your information systems. This is a must-have resource for health information management (HIM) and health information technology (HIT) professionals managing their facilities' HIPAA security requests. *Preparing for a HIPAA Security Compliance Assessment* also enhances student training in all HIM education programs.

Key Features

- Practical tools and checklists, and detailed sample policies that provide examples of assessment needs
- In-depth analysis of federal and state laws, regulations, and guidelines
- Easy-to-follow procedures to analyze and assess your information security and risk of a breach
