

## **Quality Improvement Director**

We are seeking a quality improvement director. This individual will be responsible for developing, implementing, and managing the organization's quality improvement plan in accordance with the missions and strategic goals of the organization, federal and state laws and regulations, and accreditation standards.

The successful candidate will be a Registered Health Information Administrator (RHIA), Registered Health Information Technologist (RHIT), or Registered Nurse (RN), with a bachelor's degree in a clinical or allied health-related field. A minimum of three years experience in the health information, quality improvement, utilization, or risk management field is helpful. Certification as a Professional in Healthcare Quality (CPHQ) is preferred, but not required. Knowledge of statistics, data collection, analysis, and data presentation skills required. This individual must have excellent interpersonal, communication and problem solving skills.
