Calculating and Reporting Healthcare Statistics, Fourth Edition

AHIMA Product # AB120711

Copyright page
The correct ISBN should be 978-1-58426-317-3

Chapter 8, exercise question 8.10, page 129
In the denominator, the formula should state: "(excluding deaths)"

\[
\text{Number of deaths readmitting within 30 days of the previous discharge} \times 100
\]

\[
\frac{\text{Total patients discharged (excluding deaths)}}{}
\]

Chapter 11, test question 6, page 225
Answer choice c should be "Establish between four and 12 frequency groups" rather than "Establish between five and 15 frequency groups." The correct answer is still: d. All of the above.
