AHIMA Product # AC201114

Page 150: Body Parts for the Anatomical Regions

Should state:

In figure 7.4, the 0Y6 table, the body part Hindquarter describes the entire lower limb, including all of the pelvic girdle and the buttock. Similarly, in the 0X6 table, the body part Forequarter describes the entire upper limb plus the scapula and clavicle.

Page 271: Body Parts for the Gastrointestinal and Hepatobiliary Systems

Should state:

Body part value F, Large Intestine, Right is a combination body part including a small portion of the terminal ileum, the ileocecal valve, appendix, cecum, ascending colon, and the transverse colon to the right of the midline.
