

LTPAC Interoperability & Innovation Showcase
2015 Long-Term & Post-Acute Care Health IT Summit
Baltimore, MD | June 21 – 23, 2015
Showcase: Monday, June 22
Submission Deadline: March 27, 2015

BACKGROUND

For 11 years the Long-Term and Post-Acute Care (LTPAC) Health IT Collaborative has brought together key healthcare industry stakeholders to provide the premiere LTPAC Health IT Summit. The Summit will again feature an LTPAC Interoperability & Innovation Showcase.

The Showcase will highlight innovative approaches to interoperability, emerging standards-based interconnectivity solutions for home health devices, as well as, standards-based exchange of health information. Interoperability scenarios could include innovative business models of health information exchange (HIE), those that demonstrate impacts of such exchange on health outcomes, quality of care and healthcare utilization and costs.

Examples of HIE between hospitals and LTPAC providers, and the impact of such exchange on hospital readmissions are of particular interest. Information shared may include health record summaries, health and wellness assessments and observations, medication and prescription information, discharge summaries, shared care plans, and telehealth activities. The Showcase encourages demonstrating information exchange between showcase participants.

OBJECTIVES:

- Raise awareness of interoperability standards available for LTPAC-HIT and the importance of interoperability, as emphasized in the 2009 American Recovery and Reinvestment Act, through use-cases reflecting realities of Long-Term and Post-Acute Care.
- Raise awareness to available interoperable solutions from vendors (both standards and non-standards based) and their plans to embrace and implement standards as they become available.
- Demonstrate and celebrate vendors' and providers' current interoperability capabilities (both standards and non-standards based) and their efforts to achieve standards-based interoperability.
- Provide an opportunity to vendors and providers to participate in, and accelerate, standards-based interoperability implementations to be in a better position to benefit from the HIT provisions in the American Recovery and Reinvestment Act.
- Highlight innovative approaches to interoperability and HIE and innovative business models.
- Demonstrate the positive impacts of HIE between providers on health outcomes, quality of care and healthcare utilization and costs.
- Ultimately, accelerate the adoption of standards-based interoperable solutions by care providers.

NEW IN 2015:

Participants in the LTPAC Interoperability and Innovation Showcase will be asked to provide detailed structured information about their demonstration Use Case, the Development Phase of their interoperability solution as well as the impacts providers experienced, if the solution was implemented or beta/ pilot tested and evaluated in provider organizations. These additions are intended to add value to the learning experience to conference attendees.

EVENT INFORMATION

Each participant will be offered an internet drop, electrical power drop.

***SHOWCASE SCHEDULE**

Monday, June 22

12:00 p.m. – 7:00 p.m. LTPAC Exhibit Hall & Innovation Showcase Kiosks Open
 3:00 p.m. – 5:00 p.m. LTPAC Interoperability & Innovation Showcase Demonstrations
 5:00 p.m. – 7:00 p.m. LTPAC Interoperability & Innovation Showcase Open during attendee reception

Tuesday, June 23

8:00 a.m. – 12:00 p.m. ****LTPAC Interoperability & Innovation Showcase Panel Presentations**

***Times may be subject to change.**
****Open to a limited number of participants**

PARTICIPATION FEE (Does not include Summit registration)

Exhibiting Companies: \$400	Non-Exhibiting Companies: \$1000
Submit Application	
Payment is due upon approval of application. Attendee registration is required to attend plenary and breakout sessions. To register, visit https://www.ahimastore.org/ProductDetailMeeting.aspx?ProductID=18004	

IMPORTANT DEADLINES

March 27, 2015: Application Deadline
April 20, 2015: Planning Committee to notify applicants of acceptance
 All applications will be subject to the review and acceptance of the Planning Committee. Payment is due upon approval of application. Applications will be evaluated based on level of support for standards, production deployment, maturity of interoperability roadmap, provider participation, industry knowledge and experience, connection to formal HIE, incorporation of multiple care settings, breadth of use case coverage, innovation, ability to exchange information with other showcase participants and contribution to showcase balance and variety.

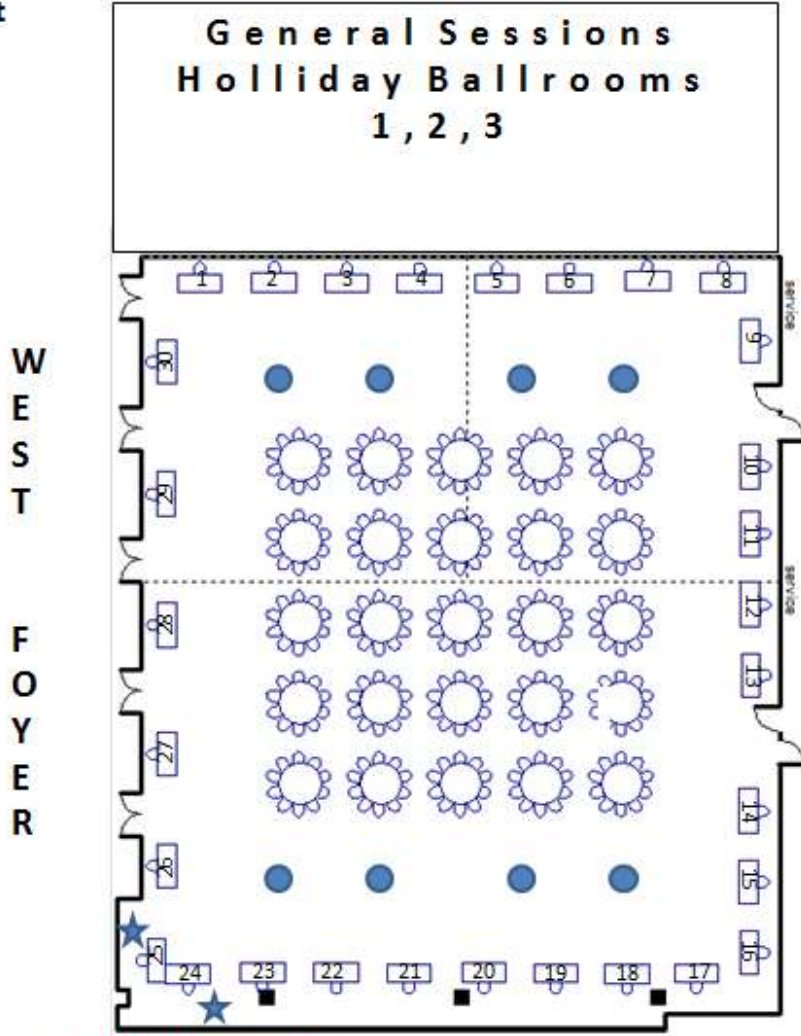

SPEAKING OPPORTUNITIES

Speaking opportunities at the Summit may be extended to a limited number of applicants, on Tuesday, June 23, particularly to those with innovative approaches, innovative business models for health information exchange or demonstrating the impacts of HIE, including reduced hospital readmissions.

SHOWCASE FLOORPLAN

2015 LTPAC HIT Summit
Baltimore Hilton
Exhibit Hall &
Meal Room
Level 2
Holiday Ballrooms, 4,5,6

-  Exhibitor Tables
-  Interoperability Showcase Kiosk

Tables 24/25 are only available as a pair.
