ANATOMY, PHYSIOLOGY, AND HUMAN DISEASE
Product Code: WAP01 | CEUs: 60
Now this is body language! Understanding the anatomy and physiology of the human body is the foundation of coding proficiency. This course provides that knowledge in a general overview format, discussing each body system in terms of major anatomical structures and function. In addition, the course discusses selected major pathologies, including disease definitions and causes, signs and symptoms, diagnostic procedures, and possible treatments. Finally, common issues and changes that occur in each body system throughout the life span are examined. Anatomy, Physiology and Human Disease presents critical information for anyone working in the coding and billing profession.

HEALTHCARE DELIVERY SYSTEMS
Product Code: WCB501 | CEUs: 45
Do you really know how the healthcare system works? When you can understand the ins and outs of the entire system, you can make more informed decisions across the enterprise. Healthcare Delivery Systems is an introduction to the financing and delivery of healthcare services. In this course, students receive an overview of the organization and activities of hospitals, nursing homes, mental health and ambulatory care centers, home health agencies, and hospices. Students also learn about the educational preparation and responsibilities of healthcare professionals and government regulations. Everything you want and need to know about the delivery of healthcare all in one session!
Price: $225

MEDICAL TERMINOLOGY
Product Code: WCB502 | CEUs: 45
Need help solving the medical language puzzle? This course covers medical terminology, symbols and abbreviations, and the application of this new language in the field of healthcare. While terms are covered as they relate to body structure and function, the main focus is on medical vocabulary and being able to construct terms using word parts such as roots, suffixes, and prefixes. As part of the Coding Basics program, this course is self-paced to work with your schedule. Start putting the pieces together—register for the Medical Terminology online course.

CLINICAL DOCUMENTATION IMPROVEMENT (CDI)

This CDI program contains four self-paced online courses directed toward clinical documentation improvement (CDI) specialists or related roles in healthcare settings. The focus of these courses is on identifying high quality clinical documentation that supports accurate ICD code assignment. CDI professionals from both clinical and coding backgrounds will find these courses beneficial. Upon completion attendees will have advanced their knowledge in recognizing gaps within the clinical documentation, identifying quality measures impacted by clinical documentation, and understand the components of a successful CDI program.

The four courses in this program are:

- Clinical Documentation Improvement: Methods (6 lessons; 2 CEUs)
- Clinical Documentation Improvement: Program Success (6 lessons; 2 CEUs)
- Clinical Documentation Improvement: Issues (6 lessons; 2 CEUs)
- Clinical Documentation Improvement: Quality Measures and Documentation Standards (6 lessons, 2 CEUs)

The courses are, of course, valuable to your education individually—but deeper understanding and reinforcement of these complex concepts can be achieved when all four courses are completed.

CLINICAL DOCUMENTATION IMPROVEMENT (CDI): METHODS
Product Code: H0CDIICD10 | CEUs: 2
This six-lesson course provides information on the terminology utilized in ICD-10-CM/PCS that impacts clinical documentation.
List Price: $96 | Member Price: $80

CLINICAL DOCUMENTATION IMPROVEMENT (CDI): PROGRAM SUCCESS
Product Code: H0CDIPS | CEUs: 2
This six-lesson course will review overall aspects of managing a clinical documentation improvement (CDI) program. Planning and organizing the program is essential for success, as is monitoring and evaluation. The course also covers potential legal aspects involved with the query process, with the goal of querying for both reimbursement and data quality. Effective management involves hiring and retaining qualified staff, which is also addressed.
List Price: $96 | Member Price: $80

CLINICAL DOCUMENTATION IMPROVEMENT (CDI): ISSUES
Product Code: H0CDII | CEUs: 2
The intention of this six-lesson course is to introduce HIM professionals to the exciting profession of clinical documentation specialist. Within this course, professionals will learn about important skills and areas of knowledge that will assist them in becoming successful clinical documentation specialists.
List Price: $96 | Member Price: $80

CLINICAL DOCUMENTATION IMPROVEMENT (CDI): QUALITY MEASURES AND DOCUMENTATION STANDARDS
Product Code: H0CDIQMDS | CEUs: 2
This six-lesson course will review how clinical documentation improvement (CDI) programs relate to quality measures in addition to being in an electronic environment. As the industry requires an increase in reporting quality measures in addition to documentation standards, it is important for an HIM professional to understand the impact CDI programs may have on a facility's data. This course will review how CDI will affect documentation necessary to meet industry standards, as well as report cards.

CANCER REGISTRY MANAGEMENT (CRM) ONLINE COURSES BY NCRA*
AHIMA has partnered with the National Cancer Registrars Association (NCRA) to provide the CRM Cancer Registry online courses. Learners must complete four prerequisite courses before beginning the CRM Specialty Courses listed below. Visit the AHIMA website for additional information: ahima.org/education/onlineed/Programs/crm.

ABSTRACTING METHODS
Product Code: CRMAM | CEUs: 15
As part of the six required specialty courses, Abstracting Methods takes a systematic look at the source documents for data. Identification of cases that are eligible for inclusion in the cancer registry database and methods of documenting pertinent clinical information according to established standards will be discussed. Independent abstracting of complete cancer registry abstracts will be conducted. To complete the lessons and exercises in this course, the student should first successfully complete the Cancer Disease, Coding and Staging course offered through this program.
Price: $225

CANCER DISEASE, CODING, AND STAGING
Product Code: CRMCDCS | CEUs: 15
As part of the six required specialty courses, Cancer Disease, Coding and Staging defines cancer, how it develops, and how it spreads to infect the body and, ultimately, cause death. Students will learn about the hundreds of different types of cancer and benign tumors and how to classify these tumors utilizing globally recognized codes. Classification will help distinguish where the cancer initiated, the type of cancer, and how aggressive it may be.
Price: $225

CANCER REGISTRY OPERATIONS
Product Code: CRMCRO | CEUs: 15
As part of the six required specialty courses, Cancer Registry Operations gives students an in-depth depiction of the systematic processes used in the daily operations of a Cancer Registry, including those to identify, code, maintain quality, and provide lifetime follow-up on cases. Detailed guidelines on how to determine which cases meet eligibility requirements of state and national standards are covered. The standards necessary for registry operations, state and national, will be explained. In addition, the voluntary standards for approved cancer programs of the Commission on Cancer will be explored in detail.
Price: $225

FOLLOW UP, DATA QUALITY, AND UTILIZATION
Product Code: CRMFDQU | CEUs: 15
As part of the six required specialty courses, Follow Up, Data Quality, and Utilization provides best practices for obtaining life-long follow-up on appropriate cases. This course demonstrates the need for data quality and methods to ensure consistent, accurate data and outcomes. Statistics and epidemiology as it applies to the registry will be explained. The structure and management of the database will be explored.
Price: $225

FOR MORE INFORMATION ON TRAINING YOUR STAFF AND GROUP DISCOUNTS, PLEASE CONTACT SALES@AHIMA.ORG.
ONCOLOGY TREATMENT AND CODING
Product Code: CRMOTC | CEUs: 15
As part of the six required specialty courses, Oncology Treatment and Coding gives an in-depth overview of available cancer treatment options, how treatment works to destroy or eliminate cancer, and how to code each. There will be a comprehensive review of surgery, chemotherapy, radiation therapy, immunotherapy, hormonal therapy, and other less frequently used treatment modalities. Treatment modalities will be linked to the types of cancer they are used against.
Price: $225

CANCER REGISTRY STRUCTURE AND MANAGEMENT
Product Code: CRMCRSM | CEUs: 15
As part of the six required specialty courses, Cancer Registry Structure and Management familiarizes the student with the basic concepts of the structure and management of cancer registries. At the conclusion of the course, the student will have a basic knowledge of the types and purpose of cancer registries, confidentiality issues, and the role of standard setting organizations in cancer data management.

CERTIFICATIONS

PRIVATE TRAINING

AHIMA’s coding certifications help healthcare professionals gain respect in their industry, enhance their resume, earn better salaries, and mark themselves as valuable leaders and assets in the HIM community.

In-person, private prep exam workshops and exam taking are offered for those who want on-site education.

CERTIFIED CODING ASSOCIATE  
Product #: CCA  
The CCA distinguishes coders by exhibiting commitment and demonstrating coding competencies across all settings, including both hospitals and physician practices.

CERTIFIED CODING SPECIALIST  
Product #: CCS  
CCSs are mastery-level professionals skilled in classifying medical data from patient records, generally in the hospital setting.

CERTIFIED DOCUMENTATION IMPROVEMENT PRACTITIONER (CDIP®)  
Product #: CDIP  
The CDIP credential holders are knowledgeable and competent in clinical documentation in patient health records and positioned as leaders and role models in the health informatics and information management community.

CERTIFIED HEALTH DATA ANALYST (CHDA)  
Product #: CHDA  
Analysts who earn their Certified Health Data Analyst (CHDA®) designation are recognized for their expertise in data analysis and interpretation. These professionals have the advanced knowledge to acquire, manage, analyze, interpret, and transform data into accurate, consistent, and timely information, while balancing the “big picture” strategic vision with day-to-day details. The CHDA is the only data analysis certification in healthcare.

For a limited time AHIMA is offering the CHDA at a 40% off discount! Discount ends January 31, 2017.  
List Price: $185 | Member Price: $155
