**Vote for positive
change to strengthen
our HIM profession!**

ABOUT

As an HIM practitioner for 17+ years, and as an educator for the past 4-1/2 years., I understand the challenges our HIM profession is facing. I am a change agent who desires to serve on the AHIMA Council for Excellence in Education to work on the following:

- Tailor education to meet the needs of students and the demands of the industry by pivoting quickly!
- Strive to meet the needs of the healthcare industry to ensure that HIM professionals are the prime candidates for future health information jobs.
- Demonstrate excellence and flexibility in using health data to own the block at the intersection of technology, business, and science.
- Collaborate with industry professionals and educators to ensure that HIM education is relevant, high quality, convenient, and meets current and future student and industry needs.
